**GLOBAL TEST SOLUTIONS AND DELTA ELEKTRONIKA  
ANNOUNCE NORTH AMERICAN DISTRIBUTION AGREEMENT**

**SAN DIEGO—February 26, 2014**—Global Test Solutions (GTS), a supplier of high-performance test and measurement instrumentation, today announced it has signed a North American distribution agreement with Delta Elektronika. Delta manufactures programmable DC power supplies.

“Delta Elektronika has chosen Global Test Solution due to our knowledge of the market and applications areas,” said Arlene Meadows, principal, GTS. “We are very excited to have them in our portfolio of high performance instruments.”

“Partnering with GTS is a great advantage to us. Arlene knows our products very well and has worked in our market for many years,” said Rien Giltay, manager of sales channels at Delta. “We should achieve great success in North America.”

**About Delta Elektronika**

Delta Elektronika has designed and manufactured DC power units since 1959. Delta power supplies are reliable—our design concept puts a strong emphasis on excellent technical specifications. Delta users expect perfection with an almost infinite lifetime—at continuous full power for a low cost.

## GLOBAL TEST SOLUTIONS AND DELTA ELEKTRONIKA ANNOUNCE DISTRIBUTION AGREEMENT

An ongoing research program has resulted in designs that meet an ever-increasing number of specifications. As a result of our design philosophy, the units react more than 10 times faster on load transients, produce hardly audible noise, and produce 10-30 times less electromagnetic interference.

### **About Global Test Solutions**

Global Test Solutions is a North American distributor for high-quality test and measurement instruments. We serve the military, aerospace, automotive, medical, and solar industries.

Global Test Solutions' principals have been designing electronic instrumentation for over 30 years and are industry leaders in safety and dielectric testing, parametric measurements, programmable AC and DC power sources, cable testing, and test fixturing. We can be reached at [www.globaltestsolutions.com](http://www.globaltestsolutions.com). Call (760) 751-2049 or email [sales@globaltestsolutions.com](mailto:sales@globaltestsolutions.com).
